The release was authorized by Post Office Inspector Lowe. leged that she was acting as procuress in exercising her influence with young girls to become inmates of a certain house of ill fame in Pocatello, Idaho. The attorney for Mrs. Black, yesterday applied for a writ of habeas corpus, which was to have been heard by the court next Tuesday, but her release obviates the necessity of habeas corpus proceedings.

Three plucky boys today sacrificed four square inches each of skin to help replace that which Della Helm, a 13-year-old girl lost four months ago in an accident which scalded half the surface of her body. The operation in skin-grafting was performed at the county hospital. The boys bared their

backs and allowed the surgeons to strip off pieces of skin and transfer them to raw wounds on the body of the little girl, an acquaintance of theirs. They were George Ralph Deloe, Henry Deloe and Earl Morris. About one-half of the surface of the girl's body was literally parboiled when she fell backward into a tub of boiling water. It will require many skin grafting operations to replace the skin that was burned away.

ADJOURNED SESSION HELD

RESIGNATION OF SUPT. ALLISON PRESENTED TO SCHOOL BOARD.

One Application Received, Various Reports Read and Considered—Action Deferred.

The board of education met last evening in an adjourned session, all members except President Browning, who is out of the city, being present. In the absence of President Browning, Vice-President Dr. Coulter presided.

At the opening of the session Dr. Coulter gave notice that he might have occasion at some future time to move the reconsideration of the action of the board fixing the salary of the attorney to be selected by the board at \$100 per annum. Mr. Coulter did not give his reason for serving the notice.

Chairman Pingree, of the finance committee, reported that there was the sum of \$191,115.26 on hand. The report further indicated that the committee was not prepared to report on the matter of placing the bond money of the board at a greater rate of interest than it now draws, and also that the question of selecting an auditor for the board would have to be deferred until a future meeting.

The report of the teachers' committee was filed, and on motion it was ordered that the supervisor of music for the city schools should make a report to the board bi-monthly, that the board might be advised as to the work she is doing. The action was taken in view of the fact that an increase of salary and the requirement of additional duties are under consideration.

The committee on supplies reported that they were in favor of purchasing 20 encyclopedias for the use of the schools, at a cost of \$10 for each copy. The report was adopted and it was decided that the order for the same be made.

The report of the sanitary committee showed that there are ten cases of contagious diseases prevailing in the city as follows: Diphtheria, 2; chickenpox, 4; measles, 4. In relation to the sanitary question Dr. Coulter passed the observation that the greater danger to the health of the children usually came from the dust of the school room, and he stated that he thought it would be well for the committee on public grounds and buildings to consider the advisability of having the floors of all the school rooms in the city oiled, so as to prevent the rising of the dust, which is often filled with disease germs.

The report of Treasurer James F. Burton was as follows:

The resignation of Superintendent

Wm. Allison was presented, read and

ordered filed. On motion of Asael

Farr the consideration of the resignation

was deferred until the next meeting

of the board, and it was so

ordered. While it was not stated in the

motion, it is generally understood that

the action was taken because of the

absence of President Browning and

it is desired that all the members of

the board be present at the time of

the consideration of the matter.

An application for the position from

J. J. Harris, principal of the Grant

school was read and ordered filed for

future consideration. Mr. Harris has

acted as principal of the Grant school

for about five years and is said to be

a competent instructor.

Interest on the school bonds in the

sum of \$1,500, which becomes due on

March 1st, was ordered paid, and the

clerk of the board was instructed to

draw a warrant for the amount.

The board adjourned for one week.
